FORWARD

With great pride the Nevada Department of Public Safety, Records and Technology Division's Uniform Crime Reporting Program presents the seventeenth annual report of *Crime in Nevada 2010*. The name of the publication has been changed to accurately reflect its contents.

Without the efforts of Nevada's law enforcement agencies this publication would not be possible. We would like to extend our sincere thanks and appreciation to each agency for their dedication and commitment in providing accurate and timely crime statistics to the state Uniform Crime Reporting Program. In recognition, this year's theme is focusing on our contributing agencies specialized units. Let us be reminded of the service and sacrifice of our great state's law enforcement.

A new addition is included in this year's book. Criminal fingerprint submission statistics by arresting agency and offense class will be provided in this publication as well as all future editions of *Crime in Nevada*.

If we can be of assistance, please contact the Uniform Crime Reporting Program at 775-684-6261 or jporter@dps.state.nv.us.

APPRECIATION

The success of the Nevada Uniform Crime Reporting Program hinges on the complete, accurate and timely participation of all of Nevada's law enforcement agencies. The program was established with the support of criminal justice and law enforcement agencies statewide in July of 1991 (NRS 179A.078).

Although responsibility for actual development and execution of the program was vested in the Nevada Department of Public Safety, the individuals at the municipal, county and state levels who submit the raw data are the entities ultimately critical to viability. Accordingly, we recognize the following dedicated people.

INTRODUCTION

The Uniform Crime Reporting (UCR) Program is a nationwide cooperative effort of over 17,000 city, county, and state law enforcement agencies voluntarily reporting data on crime. The monthly contributions to Nevada's current program, with 39 local law enforcement agencies reporting full-time, represent a solid beginning in establishing an effective statewide criminal justice information system (CJIS). We invite remaining non-participating local law enforcement agencies to join their peers in this effort and to participate in this important program.

Inquiries concerning Uniform Crime Reporting may be directed to:

**Department of Public Safety

Ideally, UCR data will eventually merge with that of the other major components of the criminal justice system (i.e., prosecutors, courts, and corrections) to form an integrated system for the exchange of vital management information. The availability of such data will enhance law enforcement's proactive response to crime and justice in Nevada. The Nevada Department of Public Safety has administered the UCR Program as a statewide, standardized method of collecting statistics on crime as it is reported to law enforcement. The UCR program also produces a reliable set of criminal statistics for use in law enforcement administration, operation, and management. Additionally, Nevada's statistics are forwarded monthly to the FBI for inclusion in its annual report Crime in the United States.

We hope UCR data will be used over the years as a leading social indicator. With this annual report, Nevada's citizens can look to UCR as the primary information source on the nature and extent of crime in Nevada. Criminologists, sociologists, legislators, state and local planners, the media, and academicians can use the statistics for wide and varied research, planning, as well as for other applications.

CRIME FACTORS

Statistics gathered under the UCR Program are submitted by the participating law enforcement agencies of Nevada and represent a spectrum of crime on statewide, county, and municipal levels. Awareness of the presence of unique variables is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime developments of the community. Comparison of crime figures between communities should not be made without first considering individual factors present in each community. Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role as to its detection and suppression. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in its report, The Challenge of Crime in a Free Society, (Page 92):

But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America.

They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case-by-case operations, one criminal or one crime at a time.

Following are some conditions that will, by type and volume, affect crime that occurs from place to place.

- Size and density of community population and the degree of urbanization in the surrounding area*
- Compositions of population with particular reference to youth concentration*
- Economic status of population, median income and job availability*
- Relative stability of population, including commuters, seasonal, and other transient types*
- Modes of transportation and area highway systems*
- Climate, including seasonal weather conditions*
- Cultural conditions such as educational, recreational, and religious characteristics*
- Standards governing appointments to the police force*
- Policies of prosecuting officials, the courts, correctional and parole/probation officials*
- Effective strength of law enforcement agencies*
- Attitude of the public toward reporting crime and participation in the prosecution of offenders*
- The administrative and investigative efficiency of local law enforcement agencies, including the degree of adherence to crime reporting standards*
- Organization and cooperation of adjoining and overlapping police jurisdictions*

The primary goal of the UCR program is to identify crime and related problems. Statistics in this publication should not be used to measure or to evaluate workloads and results of individual contributing departments. While most police agencies are collectively viewed as crime-fighting units, considerable independent research shows only a small portion of the workload of many departments is spent fighting crime. Because of other assigned duties, the peculiar cycle of crime and clearances, and different community factors that normally affect crime statistics, no conclusions regarding individual departments should be made without consulting directly with the agency being analyzed.

Crime rates in this publication are based on the resident population of the state and its subdivisions as established and published by the Nevada State Demographer. Population estimates are revised annually. Seasonal population figures are too inaccurate and fluctuate too rapidly to be used in the determination of crime rates. Most Nevada communities experience rather wide seasonal population fluctuations due to the nature of the state's major industries, gaming and tourism. Accordingly, actual crime rates per thousand reported here may appear higher than might be expected for a community of comparable size without substantial fluctuations. This should not deter police administrators from using the data for planning and administrative purposes. Local seasonal population data is available which can be utilized for further statistical refinements.

Additionally, readers are cautioned not to make direct comparisons between crime rates reported for Nevada communities and those of communities of similar size in other states without first carefully analyzing and applying local modifying factors.

POTENTIAL USES OF UCR DATA

The Nevada program is unique among similar state programs as it is dedicated to doing more than just gathering statistics. The program is dedicated to providing statistical support services to its contributors and to produce a variety of reports, or crime profiles, on an as-needed basis. These crime profiles will set the stage for extensive use of the data by police administrators and other criminal justice agencies.

Persons reading this report may ask, "How good are Uniform Crime Reports and how can they be used?" Initial responses that come to mind may be limited, but as the information is examined more closely, many and varied uses are discovered. Foremost is keeping the public informed as to the volume and nature of crime, that they may judge and act accordingly. In actuality, UCR is a multi-faceted vehicle of many uses. Here are a few, but by no means all such uses, as they relate to different groups and agencies.

Law Enforcement Contributors

Administrative information relating to:

1. Budget - need and justification
2. Staffing - number needed relating to state average number of employees vs. population and crime rate
3. Department composition - Patrol, Administration, Jail, Laboratory, Detective Division, Juvenile
4. Identification of specific problem crimes

5. Disbursement of personnel and shifts in accordance with the crime picture of individual communities with avoidance of duplication of services in cases of concurrent jurisdiction
6. Training - according to crime problem prioritization
7. Equipment procurement - by justified need
8. Selective enforcement - by crime volume, particular times, and seasons through UCR information
9. Crime Profiles - identification of problems unique to individual communities
10. Long-range Planning - as anticipated by crime trends

Governor and Legislature

1. Broad, accurate picture of crime in Nevada by location, volume, type, and rate, as reported and derived from records of all participating enforcement agencies
2. Guide to validate funding needs of special interest groups and their requests for funding of the same
3. Need for more or fewer specialized programs
4. Identification of crime trends and their relationship(s) to training, courts, corrections, and other criminal justice agencies
5. Identification of various social problems relating to drugs, alcohol, juveniles and rehabilitation
6. Effectiveness of various social programs related to drugs, alcohol, juveniles and rehabilitation

Courts - Prosecution

1. Valuable general research information on crimes within the areas being served
2. Crime trend information
3. Identification of specific crimes to be considered in the prosecutorial and judicial processes

Press

A factual source for use in reporting crime and socially-related problems

Social Agencies

1. Identification of problem areas for concentration of remedial activities
2. Application for general evaluation of program effectiveness

Educational Institutions

Educators at all levels can use UCR data for various studies, budget preparation, and planning.

The above listed are a few possible uses, undoubtedly many more exist. The larger the UCR database becomes, the clearer its value will become. Since effective problem solving begins with problem identification, UCR will continue to be meaningful for years to come.

Nevada UCR believes the data provided here can serve as a catalyst for some departments to establish modern record systems for the first time. With other agencies it may spur emplacement of needed system upgrades. This will enable administrators at the chief and sheriff levels to be able to take a renewed look at their departments, potentially effecting beneficial internal operational changes. Awareness by subordinate personnel that their reports and arrest information are being used, not just filed away, will result in better and more comprehensive reporting. Finally, the periodic release of crime information to the general public will keep the crime problem in its proper perspective.

REPORTING PROCEDURE

In Nevada's UCR, contributing law enforcement agencies are wholly responsible for compiling their own crime reports and submitting them to the Uniform Crime Reporting Section of the Records and Technology Division in Carson City. The UCR Program, to maintain data quality and uniformity, furnishes to the contributing agencies continuous training and instruction in Uniform Crime Reporting procedures. All contributors are also given data submission guidelines, report forms, and a UCR Guide furnished by the FBI that outlines, in detail, procedures to score and to classify offenses. The guide illustrates and discusses the monthly and annual report forms.

A centralized record system is vital to the sound operation of any law enforcement agency. It is an essential element for crime reporting. Trained UCR personnel at the state level assist contributors in following established reporting procedures.

Law enforcement agencies (state, county and municipal) report the number of offenses that become known to them in the following crime categories:

1. **Criminal Homicide**
 - a. Murder and Non-Negligent Manslaughter
 - b. Manslaughter by Negligence (not an index crime)
2. **Forcible Rape**
 - a. Rape by Force
 - b. Attempts to Commit Forcible Rape
3. **Robbery**
 - a. Firearm
 - b. Knife or Cutting Instrument
 - c. Other Dangerous Weapon
 - d. Strong-Arm (Hands, Fists, Feet, etc.)
4. **Assault**
 - a. Firearm
 - b. Knife or Cutting Instrument
 - c. Other Dangerous Weapon
 - d. Hands, Fists, Feet, etc, Aggravated
 - e. Hands, Fists, Feet, Not Aggravated (not an index crime)
5. **Burglary**
 - a. Forcible Entry
 - b. Unlawful Entry - No Force
 - c. Attempted Forcible Entry
6. **Larceny-Theft (except motor vehicle theft)**
7. **Motor Vehicle Theft**
 - a. Autos
 - b. Trucks and Buses
 - c. Other Vehicles
8. **Arson**

In addition, the agencies submit the number of arrests recorded, by sex and age, for 21 other "Part II" offenses. Descriptions of these offenses are provided under the offense classification section.

Another facet of the UCR Program involves the collection of "hate crimes". In 1990, the President of the United States signed into law the "Hate Crime Statistics Act of 1990". The data identifies crimes that manifest evidence of prejudice based on race, religion, sexual orientation, ethnicity, and physical or mental disabilities.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are subtracted from the actual count. The number of "actual offenses known" in these crime categories is reported to the Nevada UCR Unit whether or not anyone is arrested for the crime; the stolen property is recovered; prosecution is undertaken; or any other restrictive consideration is in effect.

Other data configurations which contributing agencies tally through the UCR system are as follows:

- Number of crimes cleared by arrest or exceptional means
- Number of crimes cleared involving persons under age 18
- Number of enforcement officers killed or assaulted
- Type and value of property stolen and recovered

- Number of arrests for all criminal acts (except traffic violations), broken out by arrestee age, sex and race
- Number of sworn and civilian enforcement personnel employed by agency type

HIERARCHY RULE

The experience of law enforcement agencies handling UCR data shows that, for the most part, offenses of law occur singly as opposed to many being committed simultaneously. In these single-offense situations, it must be decided whether the crime was one of the Index Offenses, and if so, it is scored accordingly. However, if several offenses are committed at the same time by a person or a group of persons, a different approach must be used in classifying and scoring. As a general rule, a multiple-offense situation requires classification of each of the offenses and identification of those that are Part I crimes. The Part I offenses involved must then be located within their ranked list, which goes from most to least priority. The offense, which is highest on the list, is scored. The other offenses involved in the incident are ignored. The Hierarchy Rule, which requires counting only the highest offense on the list and ignoring all others, applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts.

VERIFICATION PROCEDURE

Data uniformity and accuracy is of primary concern under this program. With coverage of approximately 39 reporting jurisdictions within the State of Nevada, the problems with attaining uniformity are apparent. Issuance of instructions and training of personnel within contributing agencies does not complete the role of the UCR Unit. It is standard operating procedure to examine each incoming report for mathematical accuracy and completeness.

Clearance factors, recovery rates, and other elements are scrutinized and changes are suggested to the contributors where needed. In the instance of minor mathematical corrections, the contributing agency is either contacted by mail, fax, telephone, e-mail or in-person visitations made by qualified UCR Program personnel.

The possibility of report duplication requires constant verification through internal consistency checks. If duplication is suspected, the contributing agency is immediately contacted and the matter is resolved in accordance with guidelines. Continual analysis of reports is ongoing to assist contributors, and to maintain the quality necessary for a factual and successful program. In addition, an FBI Quality Assurance Group periodically visits contributors to cooperatively assist in necessary auditing of records and reporting methods.

Regardless of the extent of the quality control process employed by the Uniform Crime Reporting Unit, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of reporting. We are especially grateful to the UCR support staff in each contributing agency for their diligence and persistence, and for their constant attention to reporting policies and procedures.

STATEMENT OF POLICY FOR RELEASE OF UCR STATISTICAL INFORMATION

The following policies provide guidance concerning the release of UCR statistical information. Prior to being released, all information is approved by senior UCR staff.

PROFILE OF THE STATE OF NEVADA

This profile is presented to provide some general knowledge and facts about the State of Nevada. The information might assist users of this publication in understanding the environment in which reported crime incidence and arrest data occurred.

NEVADA FACTS AND FIGURES

---Nevada is the seventh largest state in the United States, covering 109,826 square miles. The state's long western border is shared with California, the most populous state in the Union. On its northern and eastern borders are the states of Oregon, Idaho, Utah, and Arizona. The state's longest distance from the northwest corner to the southern tip is approximately 600 miles. At the widest point it is nearly 350 miles.

---Nevada consists of seventeen counties, ranging in size from 153 square miles for the state capital of Carson City to over 18,000 square miles for Nye County, one of the largest counties in the United States.

---The geography of the state consists of rugged desert and mountain terrain, with the highest mountain peak (Boundary Peak in Esmeralda County) having an elevation of 13,146 feet above sea level and the lowest point on the Colorado River having an elevation of 490 feet.

---Nevada has a four-season climate, with wide variations between its northern and southern latitudes. Low temperatures in the north can go well below zero in the winter months, while high temperatures in the south can climb well over 100° Fahrenheit in the summer. It is the most arid state in the country, receiving an average of less than ten inches of precipitation annually.

---Of Nevada's total land area, 85.3% is controlled by the federal government. State and local governments control .3% and 1.6% falls under the jurisdiction of 22 American Indian Reservations. The United States military, which has a significant presence, has also reserved large areas.

---Nevada's population increased by over 54% between 1980 and 1990 (from 800,508 to 1,236,130), 60.0% from 1990 to 2000 (1,236,130 to 2,065,610) and 31% from 2000 to 2010 (2,065,610 to 2,700,551) Nevada has had one of the fastest rates of growth in the nation for the past several years. Due to these tremendous long-term increases, several communities have been hard-pressed to provide necessary infrastructures. Despite this growth, Nevada remains one of the most sparsely populated states, with about 25 people per square mile. Fully 88% of the state's total population is located in the counties of Clark (1,951,269 – 72%) and Washoe (421,407– 16%).

---The Nevada State Demographer-University of Nevada, Reno, estimates the following population composition for Nevada in 2010: White, 66%; Hispanic, 27%; African Americans, 8%; Asian, Pacific Islanders, 7%, American Indians, Eskimo, Aluet 1%. Age 1-4, 7%, Ages 5-19, 20%, Ages 20-64, 61% and ages 65 and over, 12%. Males, 51%, and Females, 49%.

---Tourism and gaming are the state's largest industries. The gaming industry generated revenue of \$10,405,018,000 in 2010. Approximately 50,101,227 people visited in 2010. These and other interesting statistics are available at www.travelnevada.com at the top of page click "Press" and "Visitor Statistics". Of concern to Nevada is the rapid spread of gaming to other states and Indian reservations. The Las Vegas area has responded by expanding and building huge "destination" or "theme" resorts, catering to a broader spectrum of interests.

---Nevada is the largest gold producer in the United States and ranks in the top ten in the world. The bulk of this mining boom has occurred within the past fifteen years and has primarily taken place in the rural northern part of the state.

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply regularity in the commission of the offenses; rather, it represents the annual ratio of crime to fixed time intervals.

INDEX CRIMES

The first inhabitants of what is now Nevada arrived about 12,000 years ago. They were fishermen, as well as hunters and food gatherers, for the glacial lakes of the ancient Great Basin were then only beginning to recede. Numerous sites of early human habitation have been found, the most famous being Pueblo Grande de Nevada (also known as Lost City). In modern times, four principal Indian groups have inhabited Nevada: Southern Paiute, Northern Paiute, Shoshoni, and Washo.

Probably the first white explorer to enter the state was the Spanish priest Francisco Garces, who apparently penetrated extreme southern Nevada in 1776. The year 1826 saw Peter Skene Ogden of the British Hudson's Bay Company enter the northeast in a prelude to his later exploration of the Humboldt River; the rival American trapper Jedediah Smith traversed the state in 1826–27. During 1843–44, John C. Frémont led the first of his several expeditions into Nevada.

2008-2010 Nevada Index Crimes

The figures displayed here represent the latest three calendar-years of data collection and compilation under the state-run Nevada UCR Program. Thirty-seven agencies are currently reporting UCR data, covering 99% of the state's population.

Crime rates as they appear in this publication are per 1,000 population. No attempt is made to incorporate transient populations or other factors which contribute to the ratio and the types of crime in given areas. Any effort to make comparisons of crime rates between areas should be tempered by these population and environmental variables.

VIOLENT CRIMES

2010

Crime Clock - One Violent Crime Every 28 Minutes, 44 Seconds

Crimes of violence involve the element of personal confrontation between the perpetrator and victim and entail the threat or use of violence. By their very nature, violent crimes (murder, rape, robbery and aggravated assault) are considered more serious than property crimes. The total number indicates only the number of incidents reported to enforcement and does not reflect the number of criminals who committed them or the number of injuries inflicted.

The 2010 violent crime rate in Nevada was 6.7 offenses per 1,000 population. Violent crimes represented 19.7% of all reported index crimes. Enforcement agencies cleared 7,898 violent crimes for a 43.2% clearance rate.

PROPERTY CRIMES

2010

Crime Clock - One Property Crime Every 7 Minutes, 2 Seconds

Property crimes include burglary, larceny, motor vehicle theft and arson. These crimes do not involve the threat of violence, but entail property taken from one by another, or the destruction of property by arson. Because arson is the most recent addition to the crime index, to this point in time, the UCR Program has not fully reported it along with the other offenses. The reason for this is not all agencies participating in the UCR Program have consistently reported arson information, thus data reliability is still marginal.

There were 74,710 property crimes reported in 2010, representing 80.3% of total reported index crimes. Enforcement agencies cleared 15,713 (21%) of the property offenses. Nevada's property crime rate per 1,000 population in 2009 was 27.3.

MURDER

ALABAMA Elko County

The Alabama Mining District in Elko County was established in 1871 around Blanchard Mountain. Many small mines worked during the next 20 years and was gradually absorbed by the Contact district. As many as 100 lived here at one time and mine ruins, stone cabins, and other interesting fare abound in a six square mile area. Submitted by: Shawn Hall @ nvghosttowns.com

MURDER AND NEGLIGENT MANSLAUGHTER

2010

Crime Clock - One Murder Every 2 Days, 6 Hours

Murder and non-negligent manslaughter are described by UCR as the willful (non-negligent) killing of one human being by another, or, if the death is the result of the commission of another criminal act.

Murder--NRS 200.010: "Murder is the unlawful killing of a human being . (1) With malice aforethought, either express or implied. (2) Caused by a controlled substance which was sold, given, traded or otherwise made available to a person in violation of Chapter 453 of NRS." (3) Caused by a violation of NRS 453.3325

Manslaughter--NRS 200.040: (1) "Manslaughter: (a) Is the unlawful killing of a human being, without malice express or implied, and without any mixture of deliberation...(2) Manslaughter must be voluntary, upon a sudden heat of passion, caused by provocation apparently sufficient to make the passion irresistible; or, involuntary, in the commission of an unlawful act without due caution or circumspection. (3) Manslaughter does not include vehicular manslaughter

Included in this publication's count for this offense classification are deaths caused by negligence. Although manslaughter by negligence is recorded on the "offense known to police" form along with murder, it is not considered by the UCR Program to be an index offense. Attempts to murder or assaults to murder are scored as aggravated assaults and not murder.

*Due to the unlimited set of possible circumstances surrounding homicides, it is difficult to provide clear-cut or precise statistical categories for all. To achieve uniformity, the number of circumstance categories has been kept to a minimum. Caution is suggested in drawing generalizations from the data without more deliberate analysis. This table makes no attempt to analyze the motives of offenders, but rather to display general circumstances surrounding events. Also note that it is possible to have more than one victim/murder for each circumstance.

**The number of relationships may not agree with the number of victims due to instances of multiple offenders or victims.

RAPE

Belmont, a 19th-century mining camp where ruins outnumber residents, is the 1876 Nye County Courthouse. The county conducted its official business here until 1905, when the county seat was moved to Tonopah. The two-story brick building is the centerpiece of the Belmont Courthouse State Historic Site.

BELMONT Nye County

Belmont's old metal jail cells with their heavy iron doors are stashed behind the courthouse.

FORCIBLE RAPE

2010

Crime Clock - One Rape Every 9 Hours, 10 Minutes

Forcible rape, as defined in the UCR Program, is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included. Statutory rape (without force) and other sex offenses are excluded.

Sexual Assault--NRS 200.366: (1) "A person who subjects another person to sexual penetration, or who forces another person to make a sexual penetration on himself or another, or on a beast, against the victim's will or under conditions in which the perpetrator knows or should know that the victim is mentally or physically incapable of resisting or understanding the nature of his conduct, is guilty of sexual assault."

Forcible rape differs from other violent crimes in that the victim, in many cases, is reluctant to report the offense to police. The investigation by police, medical examination, court procedure, embarrassment and fear of accompanying stigma all have a deterrent effect on the victim's willingness to make the offense known to police.

Most rapes in Nevada in 2010 occurred during the months of July (104) and August (99) accounting for 203 (21.23%) of the yearly total of 956.

In 2010 Nevada law enforcement was able to clear 23.95% of forcible rapes

ROBBERY

MARIETTA Mineral County

Marietta in Mineral County was a source of salt and borax starting about 1867, and became a town in 1877. Within one year it contained 150 people, 13 saloons, a post office, several stores, and many stone and adobe huts. The daily horse stage was robbed 30 times in 1880 and in one week of that year it was robbed 4 times! The borax plants maintained productions until the 1890's and were then abandoned for more prosperous sites in Death Valley.

Crime Clock - One Robbery Every 1 Hour, 39 Minutes

Robbery is defined by UCR as "the felonious and forcible taking of the property of another against his will by violence or by putting him in fear." All attempts to rob are included in the UCR report.

Robbery--NRS 200.380: "Robbery is the unlawful taking of personal property from the person of another, or in the presence, against his will, by means of force or violence or fear of injury, immediate or future, to his person or property, or the person or property of a member of his family, or of anyone in his company at the time of the robbery. A taking is by means of force or fear if used to: (a) Obtain or retain possession of the property; (b) Prevent or overcome resistance to the taking; or (c) Facilitate escape. The degree of force used is immaterial if it is used to compel acquiescence to the taking of or escaping with the property. A taking constitutes robbery whenever it appears that, although the taking was fully completed without the knowledge of the person from whom taken, such knowledge was prevented by the use of force or fear."

AGGRAVATED ASSAULT

WASHOE CITY Washoe County

Smelters and sawmills to serve mining camps on both sides of the High Sierras were the two reasons Washoe City came into being. It did just that at the foot of Mt. Davidson during 1860-1861 when the first buildings were constructed. During the next few years, a few sawmills were producing lumber for the booming Virginia City. Population by that time reached 2,500. Smelters were busy refining ore brought in from Virginia City and other mining camps spread along the slopes of the Sierras. When shipments of ore to Washoe City began to decline along with the demand for lumber, the end was in sight, its reason for being gone. The final blow came in 1871 when the prestige of being the county seat was removed and transferred to Reno, a few miles north of Washoe City. Nearby is the imposing mansion of Sandy and Orrum Bowers whose story is told in the brief history of Gold Hill. Submitted by Henry Chenoweth.

AGGRAVATED ASSAULT

2010

Crime Clock - One Aggravated Assault Every 44 Minutes, 24 Seconds

An aggravated assault is an attempt or offer, with unlawful force or violence, to do physical injury to another. This type of assault is usually accompanied by the use of a weapon or other means likely to produce death or serious bodily injury. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime is successfully completed. Assaults with personal weapons (hands, fists, feet) are scored as aggravated if there is personal injury requiring more than simple first-aid treatment.

Assault--NRS 200.471: (a) "Assault" means: (1) Unlawfully attempting to use physical force against another person; or (2) Intentionally placing another person in reasonable apprehension of immediate bodily harm.

Battery--NRS 200.481: (1) (a) "...means any willful and unlawful use of force or violence upon the person of another."

Not included in this class are simple (non-aggravated) assaults. Simple assaults are non-index offenses, although a record is kept of these assaults on the "Offenses Known to Police" form. During 2010, there were 36,777 simple assaults reported in Nevada, with a clearance rate of 54.2%.

There were 11,872 aggravated assault offenses reported to enforcement in 2010. The range went from 864 in February to 1,170 in October.

In 2010, Nevada law enforcement cleared 6,034 aggravated assaults (50.82%).

BURGLARY

AURUM White Pine County

Located in the Silver Canyon District, the first discoveries were made in 1869. A small camp of 50 reached its peak in 1872 and by 1873 the site was empty. In 1878, new discoveries were made and a new town called Aurum was organized. Aurum had become a fair sized town by 1881, and maintained a post office, a merchandise store, a saloon, a blacksmith shop, several boarding houses, and a school. In 1882, Aurum experienced a mining slowdown and the mill shut down only 8 men were working the Aurum mines at the time. But Aurum experienced a revival in 1887 and by 1888 Aurum once again had 50 residents. The revival peaked in 1898 and by 1906 the district was all but abandoned. The last resident left in the mid-1920s and Aurum officially joined the White Pine County ghost roll.

PALMETTO Esmeralda County

Great Basin Research

Palmetto was discovered and established in 1866 when silver was found. A 12 stamp-mill was erected but there was a lack of ore, so the town was abandoned that same year. In 1906 mines were reopened and a tent city sprang up. The town had restaurants, a bakery, a bank, a doctor's office, a post office, and many saloons and assorted shops. But again the town lasted under a year when it was abandoned for other more profitable sites, one being Blair, Nevada. In 1920 another attempt was made with the same results. The townsite is completely abandoned today.

MOTOR VEHICLE THEFT

ORMSBY COUNTY Carson City

The U. S. Mint, in Carson City, was established in 1866, and in 1870 began minting silver and gold coins, including silver dollars, double and half eagles. Later, silver dimes, twenty cent pieces, quarters, and half dollars were minted. The mint was closed in 1893 when gold and silver production on the Comstock declined. During the years between 1893 and 1939 the building was used for various purposes. In 1939 it was acquired by the State of Nevada for a museum. It has since attracted a large number of visitors and regularly displays exhibits of historical artifacts.

Crime Clock 1 Motor Vehicle Theft Every 51 Minutes, 38 Seconds

Uniform Crime Reporting defines motor vehicle theft as the larceny or attempted larceny of a motor vehicle, including "joy riding." Excluded from this class is a reported offense where there is lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access, such as with employees.

Motor vehicles are defined by UCR as self-propelled vehicles that run on the surface of the land and not on rails, such as automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, ATV's, etc. Not included are farm equipment, construction equipment, airplanes, motorboats.

Motor Vehicle Theft--NRS 205.2715: "(1) Every person who takes and carries away or drives away the vehicle of another without the intent to permanently deprive the owner thereof but without the consent of the owner of such vehicles is guilty of a gross misdemeanor. (2) Every person who is in possession of a vehicle without the consent of the owner of such vehicle may reasonably be inferred to have taken and carried away or driven away the vehicle."

Motor vehicle thefts occurred most frequently during the months of August (1,045) and January (964). These months collectively accounted for 19.7% (2,009) of 2010's total motor vehicle theft offenses.

Law enforcement cleared 844 (8.29%) of all motor vehicle thefts in Nevada in 2010.

ARSON

WHITE CLOUD CITY (COPPEREID) Churchill County

Copper was discovered in the Stillwater Range in 1869 in a remote canyon called White Cloud. A camp near the mines formed with a store, saloon and about 40 people. To draw more attention to their mine, a townsite was platted at the mouth of the canyon called White Cloud City. Growth didn't come and the camp stayed small. In 1893 a copper smelter was built and shipped a limited amount. The town languished until 1907, when the Nevada United Mining Company enlarged operations and the town of Coppereid was born in the location of the original camp of White Cloud City. Enough people came to town to warrant a post office, boarding house, commissary, saloons. Production was also limited and the area was ghosted by 1912. Submitted by: David A. Wright

CLEARANCE RATES

AUSTIN Lander County

Austin was actually discovered in 1862 by a horse belonging to a W.H. Talbott. The horse, by accident, kicked up a piece of quartz containing gold and silver. By December 19, 1862 Lander County constituted almost one-third of Nevada and by 1863, almost 10,000 people flocked to the Austin area. Austin's boom prompted the territories legislature to move the county seat from Jacobsville to the young silver mining camp.

There were schools, churches, hotels, stores and, of course, the required number of saloons. Many of the structures were of adobe and brick, which minimized the damage from fires. Floods, however, were the culprit, especially those of 1868 and 1874 which ravaged the town. By 1880, the mines began to show signs of exhaustion and its total of \$50 million in ore production was history.

CLEARANCE RATES

2010

For Uniform Crime Reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several crimes, or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some elements beyond law enforcement control preclude formal charges against the offender. An offense may be exceptionally cleared when it falls into one of the following categories:

1. The offender commits suicide.
2. A double murder occurs (two persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by law enforcement officers.
5. The offender confesses to committing a crime while already in custody for another crime or serving a sentence for another crime.
6. The offender is prosecuted in another city for a different crime or the same crime by federal, state or local authorities, and the other jurisdiction refuses to release the order.
7. Another jurisdiction refuses to extradite the offender.
8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses such as petit or simple larceny.

During 2010, 25.39% of reported index crimes in Nevada were cleared, either by arrest or exceptional means. The percentage of violent crimes cleared in Nevada in 2010 was 43.19% compared to the national 2009 figure of 47.1%. Nevada's property crime clearances were 21.03% compared to the national 2009 level of 18.6% (arson with 18.5% is included separately in the national clearance percentage).

ARREST DATA

ROCHESTER Pershing County

Headframe at Rochester

All of Rochester is on a slope with very little level ground. Actually, there are two Rochesters, an "Upper" and a "Lower." The upper Rochester is referred to as the "old town." The lower town is a bit newer but less picturesque. There are many foundations and basements for homes that are no longer attesting to the town's population of 1,500 at the height of its silver mining operation between the years 1860 and 1913. It was during this period Rochester's mines produced about \$10 million worth of silver. Rochester is just south of Unionville in Pershing County.

ARREST DATA

2010

Primarily a gauge of law enforcement's response to crime, arrest counts also provide definitive data concerning the age, sex and race of perpetrators. Arrest practices, policies and enforcement emphases vary from place to place and even within a community from time to time. While the practices for certain unlawful conduct such as drunkenness, disorderly conduct, vagrancy and related violations may differ among agencies, those for robbery, burglary and other serious crime arrests are more likely to be uniform and consistent throughout all jurisdictions. The UCR Program procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified or cited. Annual arrest figures do not measure the number of individuals arrested since one person may be arrested several times during the year for the same or different offenses. For UCR purposes, a juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult an arrest would result, but in fact, there may not have been a formal charge.

Nationwide, law enforcement agencies made an estimated 13.6 million arrests in 2009 (the latest figures available) for all criminal infractions. When the overall arrest volume was related to the total United States population, the rate was 46.1 arrests per 1000 inhabitants. In Nevada, law enforcement reports to UCR in 2009 indicated a total arrest figure of 176,502. The arrest rate per 1,000 in population for the state was 57.3.

During 2010:

*Note: Nevada DPS Investigation Division arrest totals are not included.

-- 14.3% of all arrests were juveniles, 85.7% were adults

-- Index Offenses accounted for 34.80% of juvenile arrests

-- For Adults, 25.51% of arrests were for index offenses

-- 39.5% of adult arrests were between the ages of 25 and 40.

HATE CRIMES

In 1849, Brigham Young dispatched a party to the area that established a colony known simply as Mormon Station at the very foot of the Sierra. Given the circumstances, it was only natural a trading post would be established along the Humboldt. This was Mormon Station. As time went on and the colony grew, it needed a more identifying name. An Italian settler called it Genoa and the name became permanent.

GENOA Douglas County

OLD GENOA BAR In 1863, Al Livingston built this building and called it Livingston's Exchange. In 1884 - Frank Feticc bought it and renamed it Feticc's Exchange. He operated it as a "Gentleman's Saloon" allowing no rough stuff or excessive drinking. It subsequently had three more owners until 1963 when Robert Carver purchased it. Now known as the "Old Genoa Bar" it is the oldest continually operating thirst parlor in the State of Nevada.

Hate Crimes

2010

--It shall be unlawful for any person, maliciously and with specific intent to intimidate, harass, cause physical injury, or damage real or personal property of another person because of that person's race, color, religion, ancestry, or national origin.--

In April, 1990, a federal mandate to collect and report hate/bias crimes was passed by Congress.

Unlike other Uniform Crime Reporting data, which account for actual reported numbers of definite offenses, hate crime reporting requires rather subjective opinions regarding sensitive issues. This requires various law enforcement administrators to develop and utilize viable and appropriate responsive policies.

Accurate data collection for hate crime requires proper training of enforcement personnel in incident recognition as well as cooperation and desire of enforcement communities to report these offenses without influence of special interest groups, media and politics.

Criteria for recognizing and reporting hate crimes have been prepared and distributed to all law enforcement agencies in Nevada. Enforcement personnel training is periodically offered by the Nevada UCR Program and the Federal Bureau of Investigation.

Information reported in this category includes the offense in relation to the bias incident, motivation (anti-race, anti-religion, anti-sexual orientation, anti-ethnicity, etc.) and identification of victims' and offenders' sex, race and ethnicity.

Nevada enforcement agencies reported 68 hate/bias incidents in 2010. There were 48 reported in 2009 and 89 reported in 2008.

Bias Motivation

DRUG AND LIQUOR VIOLATIONS

SUTRO Lyon County

Adolph Heinrich Joseph Sutro. That name will be forever linked to the history of California and Nevada mining operations. Sutro was a Prussian emigrant who came to America in 1850 at twenty years of age. Opening his own company, he built mills and roasting ovens and was earning \$10,000 a month. Sutro had a dream, it was to build a horizontal tunnel at a level

that would intersect at a point below the deep shafts descending from Virginia City. His logic was to provide an opening to the outside to drain off water, which would lower temperatures, and to provide fresh air to the miners. It was not without considerable difficulty and forceful opposition to the raising of funds for the tunnel project. The most influential foe was the Bank of California. It felt Sutro and his plan for the tunnel would not be in the best interests of the Bank. The Bank had its own plans for the Comstock and Sutro's plan for the tunnel, although beneficial for the miners, was not in the best interest of the Bank. However, on April 7, 1869, a major tragedy occurred in the Yellowjacket mine, a fire that killed forty-five miners. Most died of suffocation. Sutro capitalized by maintaining the tunnel would have provided a means of escape and the tragedy could have been avoided. Finally, events began to go Sutro's way and construction began October 19, 1869. Thirteen years and \$5 million dollars later, the tunnel was completed. There's no need to mention how the town of Sutro got its name. But there is need to mention a visit is very worthwhile, although much is on private property.

ARRESTS - DRUG AND LIQUOR VIOLATIONS

2010

Due to the nature of the violations, along with exceptional interest and concern by public officials and citizens of Nevada, a special review is provided for drug and alcohol-related arrests. Tables on the following pages display the number and age of people arrested in 2010.

STOLEN AND RECOVERED PROPERTY VALUES

VIRGINIA CITY Storey County

During the last 20 years of the 19th century, Piper's Opera House served as one of the centers of cultural activity in the Comstock and the West. It was an important stopping point for theatrical tours of North America throughout the last half of the 19th and early 20th century. In 1863, John Piper purchased the brick office block that already stood at this location, now the entrance portion of the opera house, and established a saloon. Piper became one of the most influential theater owners in the West and ran numerous theaters in Reno, Truckee, Carson City and San Francisco, and maintained his own traveling troop. After the great fire of 1875 destroyed his first Virginia City theater (at another location), Piper built a second theater here, to the rear of the saloon. This theater also burned in 1883 after which Piper rebuilt the current opera house in 1885. The auditorium is a large rectangular room with a floor mounted on springs, a suspended horseshoe-shaped balcony and two-story box seats on either side of the stage.

LAW ENFORCEMENT PERSONNEL

SILVERBOW Nye County

Silver discoveries in 1904 and 1905 led to Silver Bow's population of more than 300 people. A town was platted in early 1905, a post office opened, a stage line to Tonopah was created, and the town took on an air of permanence. By the fall of 1905, the town had grocery stores, saloons, and a few general merchandise stores. In the Silver Bow district, silver was clearly dominant over gold. Some claims had as much as twenty times of silver as they had of gold. However, in 1906 Silver Bow began a quick downhill slide. Most of the mines had panned out and only the larger ones remained open. By the next year, only about thirty people remained in the district. By the end of 1908, the district had been abandoned. There were several attempts to revitalize the town up to 1929 but all proved unsuccessful. The remains of Silver Bow are not very extensive. A few wood cabins still stand along with some stone ruins and mill foundations.

ENFORCEMENT PERSONNEL EMPLOYMENT DATA

2010

The Uniform Crime Reporting Program in Nevada compiles information on enforcement personnel statewide as of October 31, 2010. Included are the total number of sworn and civilian support personnel with each agency broken out by gender. Also provided in this section are ratios of police to population.

A wide variety of factors unique to different jurisdictions affect the number of employees utilized by various law enforcement agencies to enable them to fulfill their service requirements. Because of this, persons attempting to make comparisons of population/enforcement personnel ratios between agencies/jurisdictions should do so cautiously. The State of Nevada, especially, with highly transient and seasonal population variations, has enforcement requirements which differ from many other jurisdictions.

Usage of the term "full-time sworn", when referring to enforcement personnel, does not necessarily mean they are engaged in what the public generally perceives as "regular" police duties, such as investigations, patrol, deterrence, etc. The number of personnel available for "regular" duties is affected by regulatory, correctional, administrative and special assignments. Consideration of in-house duties and responsibilities should temper comparisons of agencies.

Sworn Personnel

- During 2010, there were 4,272 full-time sworn municipal personnel in Nevada, providing 1.82 officers per 1,000 residents for urban population areas.
- There were 1,045 full-time sworn deputies employed by Nevada's 15 sheriff's departments in 2010, and 535 troopers with the Nevada Highway Patrol. The ratio of enforcement personnel for every 1,000 population in the rural areas was 4.08.
- Statewide, there were 5,852 full-time sworn law enforcement officers in 2010. This represents an overall ratio of 2.14 officers per 1,000 Nevada residents.
- Nationally in 2009, the latest full year of data available, a total of 14,614 city, county and state police agencies employed 706,886 full-time officers and 314,570 civilians, who provided services to more than 289 million inhabitants.
- Regionally, the highest ratios of sworn officers to population in 2009 remained in the Northeast states, where there were 2.7 per 1,000 inhabitants. The South had a rate of 2.6, the Midwest had 2.2 and the West had the lowest ratio of 1.7.
- The national rate of full time law enforcement employees (sworn and civilian) per 1,000 inhabitants was 3.0 in 2009, down from 2.48 in 2008.

Civilian Personnel

- Municipal police departments in Nevada in 2010 employed a total of 3,082 full-time civilians.
- Sheriff's departments statewide maintained 491 full-time civilian employees in 2010. The Nevada Highway Patrol employed a total of 408.
- The total number of full-time civilian support personnel employed statewide in 2010 was 3,981.

CLASSIFICATION OF OFFENSES

PARADISE VALLEY Humboldt County

One would be inclined to think the town received its name because it was exactly that—a paradise valley. It was anything but that during its early years. The original inhabitants, Paiutes, Shoshones and Bannocks, were not friendly for they saw their land being destroyed by the white man and his plowshares as the fields were being prepared for the planting of wheat. This, along with the clear water streams being polluted by mining operations was cause for attacks on the settlers that lasted for years, and many died. This resulted in two forts being built in the area, Fort McDermitt at the Oregon border and Fort Winfield Scott close to Paradise Valley. Indian attacks ceased in 1869 allowing the farmers of Paradise Valley to raise their crops without fear. The town was always more of a farming community than it was a mining camp. When mining operations ceased, Paradise Valley grew into a peaceful and productive agricultural town. If in the area, a trip to Paradise Valley is in order. Submitted by Henry Chenoweth.

CLASSIFICATION OF OFFENSES

Uniformity in reporting under the Nevada Uniform Crime Reporting System is based on the proper classification of offenses reported to or known by the police. The adoption of the National System of Uniform Crime Reporting included the utilization of the offense classifications of that system. Law enforcement in this State has made accurate application of those classifications in the reports submitted to the Nevada Uniform Crime Reporting Program. In view of the need for compatibility with the National System, "offenses" under the program are not distinguished by designation of "misdemeanors", "felonies" or violations of municipal ordinances. The explanations of offense classifications may vary slightly from language used by those familiar with Nevada State Law. However, the major categories of offense classification remain the same between the national and state level.

This class is limited to "suspicion" arrests where persons arrested are released by police.

Arrests of runaways from one jurisdiction by another agency are counted by the home jurisdiction. Protective custody actions with respect to runaways taken for other jurisdictions are not included.

CALCULATION OF RATES

The Uniform Crime Reporting Program provides data for police executives to measure local problems. To facilitate this function, local data must be converted into terms of rates and percentages. Simple formulas are displayed here which may assist in these computations.

CRIME RATES

One of the most meaningful crime statistics is the crime rate. This is the number of Part I offenses per 1,000 inhabitants. This rate can be calculated for any city, town or county.

To compute crime rates, divide the community population by 1,000 and divide the number of offenses in each class by that number. The answer is the number of offenses per 1,000 population and is the crime rate for that particular offense.

Example:

- a. Population - 75,000
 - b. Number of burglaries - 215
Divide: 75,000 by 1,000 = 75.0
Divide: 215 by 75.0 = 2.87
- The crime rate for burglary is 2.87 per 1,000 inhabitants.

CLEARANCE RATES

The percentage of crimes cleared is obtained by dividing the number of offenses cleared by the number of offenses known. This answer is then multiplied by 100.

Example:

- a. Number of clearances in robbery - 38
 - b. Number of total robberies - 72
Divide: 38 by 72 = 0.528
Multiply: 0.528 by 100 = 52.8
- The clearance rate for robbery is 52.8%.

CRIME TREND DATA

Local agencies can compute crime trends for a given offense for their individual agency for a particular period of time.

Example:

- a. Auto thefts in your jurisdiction for July through December last year numbered 21.
- b. Auto thefts in your jurisdiction for July through December this year numbered 29.
Subtract: 29-21 = 8, notice that 8 is an increase over the past year.
Divide: 8 by 21 = 0.38, always divide the difference by the total in the earlier time period.
Multiply: 0.38 x 100 = 38.0

Your trend in auto theft is a 38.0% increase for the last six months of this year compared to the last six months of last year.

POLICE EMPLOYEE DATA

Police employee rates are expressed as the number of employees per 1,000 population. To compute this rate, divide the population by 1,000 and divide the number of enforcement employees by this number.

Example:

- a. Your jurisdiction's population - 75,000
 - b. Your agency's number of employees - 102
Divide: 75,000 by 1,000 = 75
Divide: 102 by 75 = 1.36
- Your employee rate is 1.36 employees per 1,000 population.

DOMESTIC VIOLENCE

SEARCHLIGHT Clark County

Gold was discovered in this Searchlight in 1897. By October 1898 a post office and camp were in place roughly 3/4 of a mile from the original site. By winter of 1899 the population increased to a point that could call it self an official town. By 1907 it boomed to a point of 5,000 people with over a dozen saloons, a telephone exchange, and 44 working mines.

PROTECTION ORDERS

BEOWAWE Eureka County

A small camp formed here during the 1840s and 1850s when a trading post was set up along the California Trail. An actual town didn't materialize until the arrival of the Central Pacific Railroad in 1868. A post office opened in 1870 and the town became the center of a spread out ranching community. By 1881, the town had a population of 60 and had a hotel and store. When the boom at Buckhorn began in 1909, a large power plant was constructed at Beowawe. However, the boom died in 1916 and the plant was abandoned. Today, the town continues to survive and maintains a sleepy existence. Trains still rumble through but no longer stop. The old depot was torn down in the 1980s. Many old buildings still remain and the huge foundations of the power plant are interesting.

Protection Orders

The following report will describe and summarize temporary and extended protection orders issued in the State of Nevada for the calendar year of 2010. These reports are broken down to show which orders were granted to men and to women. Also included is a listing of those orders that included custody of a minor child and available historic data.

Definitions:

Temporary Protection Orders:

Can be granted within 24 hours of receiving the application and in effect up to 30 days or until scheduled court hearing.

Modified Temporary Protection Orders:

These are temporary protection orders that have been modified by the courts since their original issuing.

Extended Protection Orders:

Awarded only after a hearing before a judge and in effect for up to one year.

Modified Extended Protection Orders:

These are extended protection orders that have been modified by the courts since their original issuing.

Any of the above orders can also include a grant of temporary custody of a minor child.

Please note that on the graphs you will see gender described as male, female, and unknown. Unknown includes those who entered unknown on the application, or those that did not complete the gender portion of the application.

CRIMES COMMITTED AGAINST OLDER PERSONS

SEVEN TROUGHS Pershing County

The town of Tunnel in Pershing County was started after Seven Troughs was in full production for the purpose of tunneling through the mountain and hopefully intersects the vein that was being mined at Seven Troughs. Much like the Sutro Tunnel near Virginia City it was also hoped to provide drainage for the mines and an easier way to ship the ore. There is not much left at Seven Troughs to see but there are a few foundations and street outlines. It is also a very rough road to get in, subject to flooding as it is in a very narrow canyon. At the mouth of the canyon there are the remains of another town which literally did wash away in a flash flood. That town was named Mazuma and all that is left is debris along side the road. One interesting object next to the road is an old safe that washed out of the bank.
