Good morning. Welcome to the Department of Public Safety's Records, Communications and Compliance Division stakeholder meeting for Nevada Administrative Codes falling under chapters 179A and 202 and sections of NAC 427A. My name is Erica Souza-Llamas and I'm the Administrator for the Division. This meeting was properly noticed on the Division's website, the Nevada public notice and legislative websites. Additionally, the notice was physically posted in our Carson City location on Nye Lane, the State Library and Archives, the Department of Motor Vehicles, the Carson City Library, and the Las Vegas Clark County Library District. Please note that this meeting is being recorded. The intention of the meeting is to seek stakeholder input on NAC 179A, NAC 202, and NAC 427A.490 through 427A.545. No action will be taken today.

There will be two periods of public comment. If you'd like to make a public comment, we'll take them in order as we see them.

I'm going to open the first period of public comment because of time considerations, if we have a lot of people wishing to speak, each person offering public comment will be limited to two minutes. Is there anybody online that would like to make any public comment?

Is there anybody's on the phone?

We don't have anybody here in the room, so I am going to move on to agenda item number three, Governor Lombardo's Executive Order 2026-003, which requires every executive branch department and agency to hold a public meeting to solicit recommendations regarding regulations subject to its enforcement. That should be streamlined, clarified, or removed, and undertake a comprehensive review of those regulations and to identify any other changes for consideration.

Nevada Administrative Code 179A pertains to records of criminal history and provides definitions for various terms and requirements governing the management, security, dissemination, and oversight of criminal history information. The chapter also adopts administrative and security policies. It outlines responsibilities of custodians of records, sets out rules for authorized recipients, and establishes standards for system security and regular auditing.

NAC 202 pertains to concealed firearm permits and provides basic definitions and information that must be included in a permit application or renewal.

It covers the local sheriff's office's responsibilities for issuing or renewing permits, and it also provides the contents that are required in an initial application or a renewal application.
NAC 427A.490 through 427A.545 pertains to the statewide alert for the safe return of missing endangered older persons. This alert is also known as the silver alert. This regulation covers the activation of the system by a law enforcement agency and provides procedures for the extension of a silver alert, as well as the cancellation of the alert. I will now open the second public comment under agenda item number four. Is there anybody online that would like to make any comments during this period? Seeing none, I am going to close public comment. Thank you, everybody, for your attendance online at this stakeholder meeting. I am now going to adjourn and close out the meeting. Thank you.
